BARDAHL **ENGINE POWER BOOSTER**

Reduces friction and increases power in hard-working gas and diesel engines.

THE PROBLEM

Hard working engines in trailer-towing, off-road or recreational vehicles demand extra protection from the engine oil to maintain efficiency and performance. Heavy loads and high temperature operation will break down the active ingredients in motor oil. This will result in lower oil pressure, increased oil consumption, greater friction, more wear and the formation of harmful engine deposits. The depletion of these important oil properties will reduce performance and can lead to serious engine damage and costly repairs.

THE SOLUTION

BARDAHL Engine Power Booster is an ultra concentrated formula that reduces engine wear, restores lost power and increases engine efficiency. The formulation uses 'polar attraction' compounds to enhance the level of lubrication. Engine Power Booster is comprised of anti-wear, extreme pressure, and oxidation inhibiting additives, plus an oil stabilizer to improve the strength and thickness of the oil film at high temperatures, providing the essential level of protection for hard working gasoline and diesel engines.

THE BENEFITS

- Concentrated Zinc formula
- Extra protection for engines using low sulfur diesel fuels
- Reduces friction and wear to improve gas and diesel engine power and performance
- Inhibits oxidation to reduce formation of sludge, gum and varnish deposits
- Synthetic oil stabilizer increases oil viscosity to decrease oil consumption and lower emissions
- Special dispersant additive helps prevent soot build-up in diesel engines

DIRECTIONS

Add with each oil change or between oil changes as needed, especially before a demanding, heavy duty use of the vehicle. While the engine is idling and warm, pour entire contents into the crankcase. One bottle treats up to 5 quarts of motor oil. This formulation is suitable for use in all types and grades of motor oil, including synthetics. Dispose of any used or unused solution in accordance with the local, state and federal regulations.

Product Specifications

Product #	1511
Unit UPC#	0 76906 11084 6
Case UPC#	30076906110847
Pack Size	12x12oz (355 mL)
Dimensions	L x 11" W x 8" H 8.25"
Weight & Cubic ft ³	10 lbs / 0.42 ft ³
Color	Amber
Specific Gravity	0.880
Viscosity	80 cSt @ 100°C
Flash Point	>356°F / >180°C
