

PRODUCT INFO

BARDAHL GAS+ Fuel System Cleaner

Fuel system cleaner and water dispersant.

THE PROBLEM

As the miles accumulate on your vehicle, so too do carbon deposits build up on injectors and intake valves, increasing the octane required to keep your engine running smoothly. This octane requirement increase (ORI) is often neglected, resulting in rough idle, hard starting, and diminished power. Additionally, water accumulates in the fuel system over time, exacerbating the problems caused by ORI, and promoting rust and corrosion in the fuel system.

THE SOLUTION

Bardahl's Gas+ is formulated with advanced fuel detergents, water dispersants, and antioxidants to keep your vehicle running at its best. Its detergents fight carbon buildup, keeping (ORI) in check and maintaining power and fuel efficiency. It takes a two-pronged approach in dealing with the harmful effects of water in your fuel system, utilizing dispersants to remove existing water, and antioxidants to mitigate the rust and corrosion that may develop from the water already present in the system.

THE BENEFITS

- Keeps Fuel System Clean
- Combats Octane Requirement Increase (ORI)
- Disperses Water
- Improves Fuel Economy
- Protects against Rust & Corrosion

DIRECTIONS

Use with every tankful to keep fuel system clean. Add to tank prior to filling with gasoline. Treats up to 60 liters (16 gals). For fast clean-up use Injector Cleaner+. Dispose of any remaining solution in accordance with country or government regulations.

Product Specifications

Product #	3003
Unit UPC#	0 76906 03003 8
Case UPC#	30076906030039
Pack Size	12x5oz (148 mL)
Dimensions	L x 9.5" W x 5.5" H 8.5"
Weight & Cubic ft ³	4.5 lbs / 0.26 ft ³
Color	Amber
Specific Gravity	0.843
Viscosity	N/A
Flash Point	>141°F / >60.5°C
