BARDAHL **RADIATOR STOP-LEAK**

Quickly stops seaks in the radiator and cooling system to avoid costly repairs.

THE PROBLEM

The loss of coolant from the radiator, engine blocks, cylinder heads, and heater cores can cause the engine to over-heat , which can create serious damage and result in very expensive repairs.

THE SOLUTION

BARDAHL Radiator Stop Leak is an easy to use chemical solution that safely and quickly repairs minor leaks in radiators, engine blocks, cylinder heads, and heater cores.

THE BENEFITS

- Seals minor leaks in the radiator and cooling system
- Safe to use and will not harm metal, rubber or plastic parts
- Will not interfere with heater core or thermostat operation
- Mixes with all types of rust inhibitors, anti-freeze and coolants
- Compatible with all rust inhibitors, coolant types and anti-freeze solutions

DIRECTIONS

Open radiator cap when engine is cool. Start engine, when it reaches operating temperature, shake vigorously and pour into radiator. Do not use more than 3 oz. per gal. of cooling system capacity. If needed, add coolant/anti-freeze so level is above radiator core. Replace cap.

Product Specifications

Product #	8118
Unit UPC#	0 76906 08118 4
Case UPC#	30076906081185
Pack Size	6x16.9oz (500 mL)
Dimensions	L x 8.75" W x 6.75" H 6.75"
Weight & Cubic ft ³	7.5 lbs / 0.23 ft ³
Color	Green
Specific Gravity	1.050
pH Level	10
Flash Point	N/A
